For questions about other media part numbers please contact your Epson representative or media vendor

* Proper use of tested media is consistent with the printer warranty, but damage from use of non-tested media is not covered by the printer warranty. Epson's statements about tested media are not warranties of the media, tested or otherwise, and tested media are not Epson products or warranted by Epson. Print results depend on the text and graphics printed on the label and the operating environment.

** For media with black marks Epson recommends enabling black mark control
