- User replacement of selected components is supported on this model conditional on registration under Epson Cloud Solution PORT and training of operators.
- Performance figures are print speeds only actual production times will vary depending on a range of factors including print mode, computing platform, print application/RIP, file type/ format/size, networking, and sublimation method. Effective resolution with Half Tone application is 300 x 300 dpi.
- Ink and media may be supplied in additional boxes. Operation will require installation of an appropriate power supply and connection to a network with Internet access. The independent sourcing of a calendar press will generally also be required. Some software components will need to be downloaded from the appropriate Epson Website. Important: not all software is Mac compatible (check website for details).

Superior imaging with extended gamut and high colour accuracy

Heavy roll support with active intelligent feed management

Compact double-sided drying system

Advanced media set-up with automatic self adjustment

Integrated head wiper with user replaceable fabric roll.

Ink Supply System holds up to 80 L with automatic hot-swap
