1 Epson dye sublimation inks used in this printer meet the needs of Oeko-Tex Eco Passport safety standard when applied and affixed to appropriate fabric. For further details on this standard, please visit www.oeko-tex.com/ecopassport	
2 The printer is supplied with a 90-day warranty that covers the print mechanism (including printheads) and ink system. Optional onsite CoverPlus is also available. Visit www.epson.com.au/coverplus or www.epson.co.nz/coverplus for full details.	
3 This model supports user replacement of selected components, subject to Epson Cloud Solution PORT registration and operator training.	
4 Figures presented are print speeds only. Actual production times will vary depending on a range of factors including print mode, computing platform, print application/RIP, file type/format/size, networking, and sublimation method. Effective resolution with half tone application is 300 x 300 dpi.	
5 Heavy roll support can be provided just for the feed system or both the feed and take-up systems.	
6 Ink and media may be supplied in additional boxes. Additional ink will need to be ordered for 6c configurations in an appropriate colour mix. Roll feed and take-up units must also be selected and ordered separately. Operation will require installation of an appropriate power supply and connection to a network with Internet access. Typically, acquiring a calendar press is also necessary. Some software components will need to be downloaded from the appropriate Epson website. Important: Not all software is Mac compatible (check website for details).
