¹ The four colour Epson dye sublimation inks used in the SureColor SC-F560 printer, when applied to polyester fabrics, pass the requirements of the Oeko-Tex Standard 100 for human ecological requirements of Class I products for adults, children, and babies up to 36 months. The standard specifies testing criteria for the presence of harmful substances within a textile product and belongs to the International Association for Research and Testing in the field of Textile Ecology (Oeko-Tex).

² This printer is designed to operate with specific consumables. Use of alternative ink and/or maintenance items is likely to effect print quality and mechanical durability. Provision of Warranty and CoverPlus service is subject to a range of terms and conditions including usage within duty cycle limits, regular user maintenance, and the usage of correct and genuine Epson consumables. Additional charges may apply for on-site service in non-metro areas. Please refer to the Warranty section of the Epson Australia and New Zealand Web sites for further detail.

³ Performance figures are printer speeds only; actual production times will vary depending on a range of variables including computing platform, print application, file format, image size & type, print mode, application software, networking configuration, sublimation equipment, workflow, etc.

⁴ Some software requires Web download. Not all software is Mac compatible. Epson Edge Print software will be released subsequent to the commencement of product shipment; customers who purchase in Australia or New Zealand and register their printer purchase will be eligible for a copy.

Epson Dye Sub ink provides an enhanced gamut and colour depth over traditional 4-colour sets.

Epson Dye Sub media is available in sheet and roll and is designed to produce outstanding results on fabric and hard surfaces.

An optional stand enables floor mounting and includes an integrated media basket.

Additional roll spindles enable easy storage and rapid loading of multiple media types and/or sizes.

An integrated pop-up sheet-feeder holds up to 50 sheets of A4/A3 media. The printer auto switches between sheets and rolls.
