

SilverFast SE 8 Download Procedure

*Suitable for:
Perfection V550 & Perfection V600*

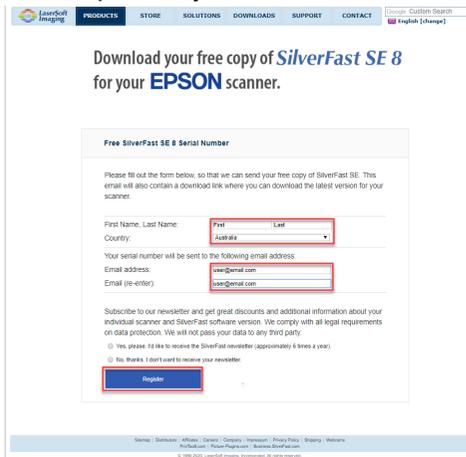

Features provided by Digital ICE have been replaced by features within SilverFast SE 8. This software is provided free if you have a Perfection V550 or Perfection 600 scanner. The Dust and Scratch Removal from Digital ICE is replaced by Infrared Dust and Scratch Removal (iSRD) in SilverFast. You may find a video guide on how to use this [here](#). Additionally defects removal can be applied using SilverFast's Smart Removal of Defects (SRDx) Photoshop plug-in. More information on SRDx may be found [here](#) or a video guide on how to use this feature may be found [here](#).

How to obtain your download:

- 1) Navigate to: <https://www.silverfast.com/show/bundle-epson/en.html>
- 2) Select your scanner model, then input your serial number which is located on the back of your scanner and then click on “Check”.

- 3) Input your name, country and email address. The email address which you used will be used to provide your serial number and download link.

- 4) An email should be sent to your address which will contain the serial number for your SilverFast SE 8, the download link and a link to register your SilverFast SE 8 serial number.
- 5) Click on the download link inside the email to download your copy of SilverFast SE 8. Please ensure that the correct operating system is selected before you click on “Show Downloads”

- 6) You can now download your copy of SilverFast SE 8 via the Software Download section. Do not forget to register your SilverFast SE 8 using the serial number provided in your email. You may register using the following link: <https://www.silverfast.com/show/activate-silverfast/en.html>
